

WHAT ARE THE BENEFITS OF FORMING A CORPORATE TEAM?

Corporate teams are a great way to rally coworkers towards a common cause, get to know each other out of the office, stay healthy and of course make a huge impact on cancer research and care.

ENCOURAGE TEAM BUILDING

Employees will train and fundraise together, building camaraderie and team spirit across different departments. Imagine how proud and united your team will feel when they cross the finish line on August 20th!

PROMOTE HEALTH & WELL-BEING OF EMPLOYEES

Studies show that people who regularly practice proper nutrition and exercise regularly tend to stave off illness and are more productive in the workplace. Teams can train together in the lead up to The OneDay, we're here to help and have lots of tips to get you started.

RAISE CORPORATE VISIBILITY IN THE COMMUNITY

The hard work and motivation of employees will be seen as a goodwill gesture within the local community and will translate into increased brand awareness. Furthermore, you will be showing support for employees, customers and stakeholders who have been affected by cancer.

MAKE A SIGNIFICANT MARK IN THE FIGHT TO CONQUER CANCER

Your company will align its brand with health and wellness and become one of Queensland's leading champions in the fight to conquer cancer.

Register your team online today at theoneday.org.au or contact our Business Development Manager Jonathan for more info.
